Belgian chocolates

Belgian chocolate is considered a gourmet standard against which other chocolates are measured. Perhaps it is the most coveted, celebrated chocolate in the world. Belgian chocolates have the best mouth feel. Created in the year 2008, Choco-licious offers hand-made Belgian chocolates of the finest quality, painstakingly created out of pure imported chocolate with only select ingredients. Offered in a range to match every moment and mood and beautifully gift wrapped and presented. Perfecting the art of perfection, these chocolates are poured out with the finest raw materials that include butter, milk, fresh cream, liquers and contains no artificial dyes or preservatives. Choco-licious chocolates are hand made, using the traditional equipment used in Belgium. The pure quality of ingredients along with traditional techniques and old recipes of Belgian chocolates is what makes Choco-licious unique.
